Sorry - pulled trigger too soon on last msg. What I meant to say is that Erin and Bruce will get in touch with Adam and Mark as we are drafting our comments. We're also seeking advice from USGS on what more might be done to better assess toxics impacts; doesn't seem like consultant tried very hard.

Not sure if I got back to you. Yes would be good to collaborate. Especially on flow (adam).mark for water quality though will mostly be) staff.

Hey Les -

We're starting to review the Effects Analysis chapters on flow/turbidity/temp and toxins. Bruce has lead for flow; Erin for toxins. It may help us both if our staff collaborate on these reviews?

- KS
